Register Stand & Dry Waste Cabinet Details

RS-24 and DRY-12

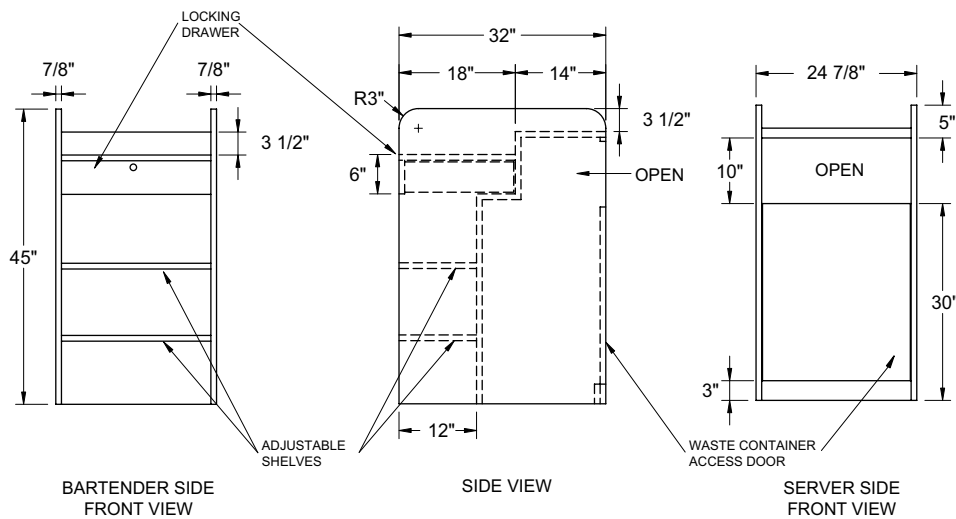

DRY-12

RS-24

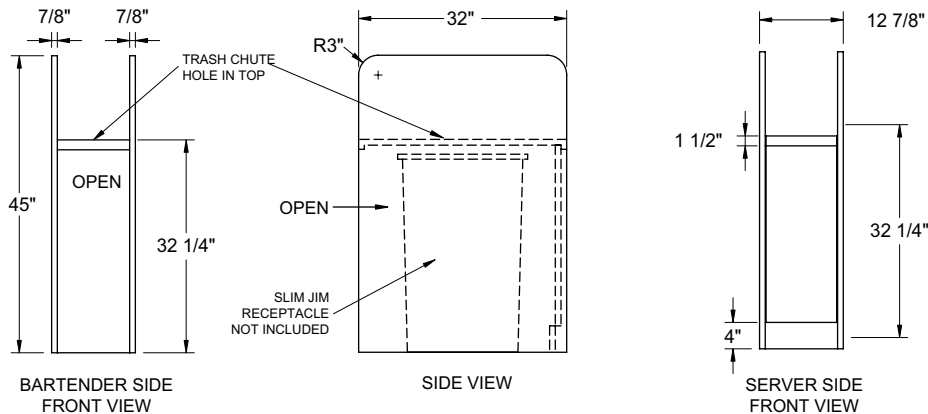

Standard Features

The RS-24 pass thru register stand and dry waste cabinet and the DRY-12 dry waste cabinet are both designed to be used in conjunction with Glastender pass thru cocktail stations. Both units are constructed of 3/4" plywood panels laminated on all six sides (faces and edges). When mounted next to a pass thru cocktail station, the end panel of the RS-24 or DRY-12 serves as the end panel for the cocktail station. Therefore, the cocktail station should be ordered LESS one end panel.
