Specifications	Product Information
-----------------------	----------------------------

Materials

- 20 gauge stainless steel parts include: liquor steps and front rails
- 18 gauge stainless steel parts include: one piece ends, back and clip on glasswasher and cocktail station models
- 16 gauge stainless steel parts include: clip on speed rail models
- 14 gauge stainless steel parts include: ends on speed rail models

Clip-on speed rails come in three different styles based on the particular mounting situation. The CSR-X-SR models, where X = the length of the unit in inches from 12" to 48", are designed to clip to an existing Glastender single or double speed rail.

The CSR-16 and CSR-22 are 16" and 22" clip-on single speed rails for use with the GT-24 and GT-30 glasswashers, respectively. The CDSR-16 and CDSR-22 are double versions used for the same purpose.

The CS-35-CS is a 35" clip-on single speed rail used to clip to the front panel of a pass thru style cocktail station.
