**Bottle
Disintegration
System**

Increase your cash flow by decreasing your trash flow

• UP TO •
85%
VOLUME
REDUCTION

Glastender's Bottle Disintegration System reduces the volume of glass bottle waste by as much as 85%, lowering your disposal fees and paying for itself over time. The BDS unit is easy to use and crushes a bottle in mere seconds, while being no louder than a standard blender.

Multi-level baffle system on feed chute for safe operation and glass containment

Disintegrates beer, wine, and liquor bottles up to 4" in diameter and 14" in height

120V operation. Grounded cord and plug provided. Available for export with 220V/50Hz electrical.

Stainless steel interior and exterior resists corrosion and is easy to keep clean

The compact design fits easily under a bar or in a service station

Includes locking casters so unit can be easily moved for cleaning

Easy operation - simply turn it on and push a bottle down the feed chute.

Green indicator light illuminates when unit is running.

Red indicator light illuminates when a fault has occurred.

Closed door safety sensor prevents operation when front door is open

Bucket stop bar ensures bucket is fully seated when door is closed

Bucket seating safety sensor prevents operation when the bucket is not in place

Includes safety interlock switches

Bucket shown cut away for illustrative purposes
