

# Want to go topless?

To simplify their manufacturing process, our primary competitor only provides back bar coolers with finished tops.

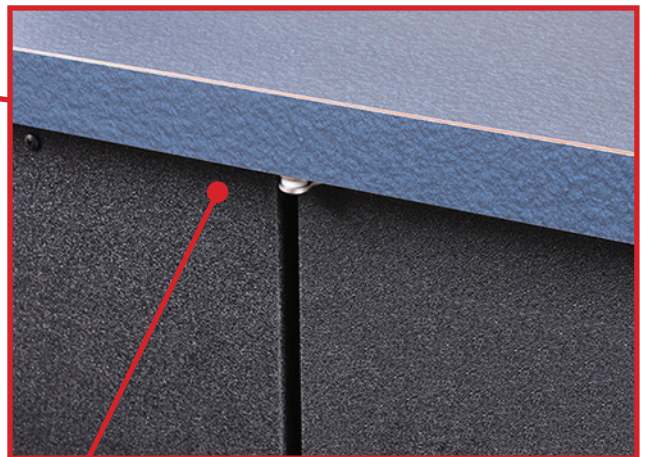

At Glastender, we believe giving you a beautiful bar comes first, so our coolers are also available without a finished top for a cleaner, built-in look.

**Superfluous finished top does not provide a built-in look**

BB36 shown without finished top

**Glastender cooler without finished top provides a built-in look**

**Glastender.** Where little ideas make a big difference.
