

Better or best.

It's your choice.

Glastender's main underbar line is superior to Perlick's, yet is priced competitively. Our superior features cost more to manufacture, which means we cannot always beat Perlick's price. To remedy this situation, we developed the Choice line of underbar to compare more directly with Perlick, while still distinguishing itself with the following set of superior features:

- All stainless steel fabrication
- One-piece seamless top and backsplash, excluding ice bins and corners
- A generous 14" underbar skirt
- Welded construction with bolt-on legs
- Integral, welded backsplash stiffeners
